Improving Risk Governance

National Platforms for Disaster Risk Reduction

OVERVIEW

The Sendai Framework stresses the need for better governance of risk. By ensuring effective coordination of DRR at national level, National multi-stakeholder coordination mechanisms play an instrumental role in ensuring an all-of-government and all-of-society approach to reduce risk and build resilience.

- **UNDRR Stakeholder Engagement Mechanism**
  We urgently need to start applying a preventive, risk-informed focus to all decision making. Read 5 recommendations by the members of the UNDRR’s Stakeholder Engagement Mechanism to reduce risks, save lives, and build a more sustainable world.

- **Opinion: Urgent need for cities to deepen awareness of risk**
  The successor campaign, MCR2030, will launch towards the end of this year and pandemic preparedness will be a priority area of focus for all participants, including local governments and municipalities, over the next decade.

- **Shaping the 2021-2030 European Roadmap for Disaster Risk Reduction**
  25 Member States in the region will support preparations of the European Forum for DRR, taking place in Matosinhos, Portugal in November 2021, including the defining of the 2021-2030 EFDRR RoadMap, the backbone for coordinated implementation of SFDRR and related SDGs targets.
Public consultations for EU Adaptation Strategy

The European Commission announced the adoption of a new EU Climate Adaptation Strategy and launched an open public consultation for its work on the new Strategy.

Sendai Framework Monitor

Snapshots of indicators

- A-2a – Number of deaths attributed to disasters: 0
- C-2 – Direct agricultural loss attributed to disasters (Currency: EURO): 0
- D2/D3 – Number of destroyed or damaged educational and health facilities attributed to disasters: 0
- E-1 – National average score for the adoption and implementation of national DRR strategies in line with Sendai: 0.925/1
- E-2 – Percentage of local governments that have adopted and implemented local DRR strategies in line with national strategies: 100

The UN Office for Disaster Risk Reduction (UNDRR) works towards the substantial reduction of disaster risk and losses to ensure a sustainable future.

UNDRR is the focal point of the United Nations system for disaster risk reduction and the custodian of the Sendai Framework, supporting countries and societies in its implementation, monitoring and review of progress.
