

Building the resilience of SMEs in Mexico

Best positioned to support their local communities to build resilience

UNDRR Global Survey carried out from November 2019 through March 2020¹

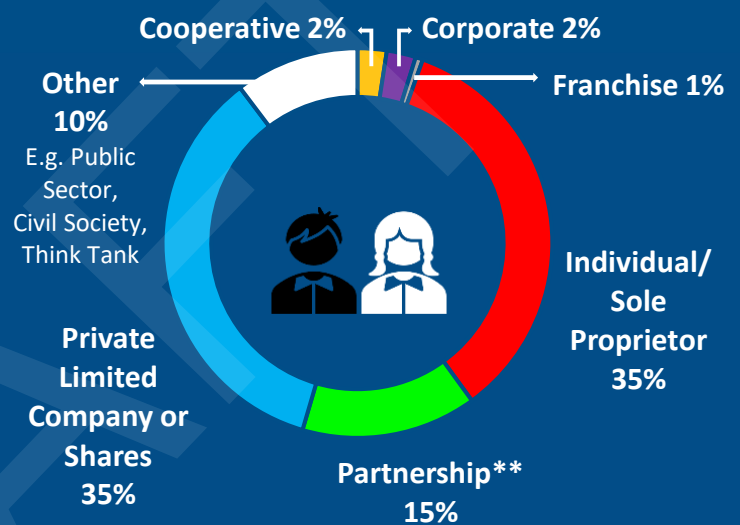

99.5%
of firms in Latin America and the Caribbean are SMEs and they generate 60% of productive employment²

60%
of companies in Mexico are aware of tools that can be used to understand the risk

Building the resilience of SMEs

Survey responders (MX) by category

Significant Risks Identified by SMEs Responses in Mexico

52%
of companies in Mexico have a risk reduction strategy in place

60%
of companies in Mexico carry out risk assessments prior to new investments

*Other: E.g. fires, human impact on the environment, changes in compliance regulations, the economy, political instability, theft, blackouts, lack of government action

**Partnership: an association of two or more persons to carry on as co-owners a business for profit

Global impacts of COVID-19 amplify urgency to build SME resilience

Global statistics:

Working-hours losses due to the COVID-19 pandemic in the 2nd quarter of 2020⁴

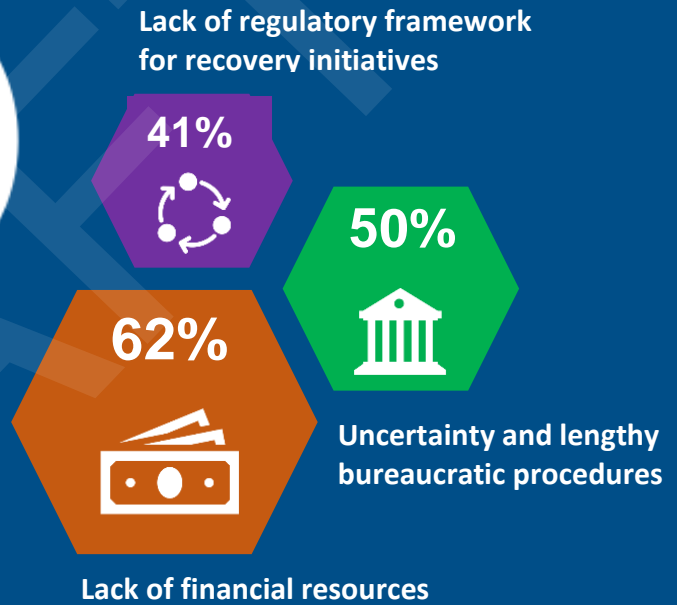

480m jobs lost globally

Structural policies to strengthen longer-term resilience of SMEs⁵

Only **15%** of the measures implemented by OECD countries

Top cited bottlenecks that delay business recovery (MX)

Top cited bottlenecks that prevent investing in SME Resilience (MX)

Lack of capacity and resources	32%
Lack of awareness of risks and potential impacts on business	16%
Lack of incentives	14%
Difficulty identifying effective measure	13%
Not considered an immediate priority	13%

Critical Success factors that strengthen SME Resilience⁵

- Supporting and developing international and national policy frameworks that address the specific needs of SMEs
- Providing access to finance and financial products tailored to SMEs
- Combining Enterprise Risk Management and Business Continuity Management mechanisms to better incorporate and increase the focus on prevention
- Addressing interdependencies and inequities across value and supply chains

SENGAI FRAMEWORK
FOR DISASTER RISK REDUCTION 2015-2030

¹Out of 444 responses from 33 countries, 394 responses from 12 countries were utilized. Note that it is likely that respondents to the UNDRR 2020 survey are interested and engaged in risk prevention, or could be part of the ARISE, the Private Sector Alliance for Disaster Resilient Societies. This might have led to certain bias in response for the questions.
