

Is the Cooperation Framework climate and disaster risk-responsive?

CHECKLIST

Module 07 group work supporting document

*This checklist is part of Module 07 – Regional-Level Module on Integrating DRR and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework of the learning package on the **Guidance Note on Integrating Disaster Risk Reduction and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework**, the whole of which can be accessed here:*
<https://www.undrr.org/publication/integrating-disaster-risk-reduction-and-climate-change-adaptation-un-sustainable>

Is the Cooperation Framework climate and disaster risk-responsive? – Checklist part of the learning package on the Guidance Note on Integrating Disaster Risk Reduction and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework

Note to user: This checklist has been made for users at the regional level (Peer Support Group or Issue-Based Coalition members) for use when reviewing draft UN Sustainable Development Cooperation Framework document. It is best used alongside the draft, the *Cooperation Framework Companion Package*, and the *Guidance Note on Integrating Disaster Risk Reduction and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework*.

“Suggested recommendations to the UNCT” are suggestions only – please feel free to adapt to the specific UNCT and regional/national context.

Question	Use “X” to cross off the applicable answer		Follow-up
	No	Yes	
Do any of the following sections mention climate change adaptation:			Suggested recommendation to the UNCT if “no”:
Executive Summary			Make reference to the ongoing and expected impacts of the climate emergency (and associated extreme weather incidents) on the country.
Country Progress Towards the 2030 Agenda			Highlight the impacts of the climate emergency and associated extreme weather incidents on the country's progress towards the 2030 Agenda and Leaving No-One Behind, including the cumulative impacts of recurrent extreme weather.
Theory of Change			Integrate adaptation to climate change risks identified in the Multi-Dimensional Risk Analysis of the Common Country Analysis into the Theory of Change.
Strategic Priorities for the UN Development System			Articulate the role of climate change adaptation and environmental management to achieving and sustaining development results in the priority areas more clearly.
Intended Development Results			Articulate commitment to disaster risk reduction and environmental protection more clearly by utilizing relevant SDG 13, SDG 14 and SDG 15 indicators.

Is the Cooperation Framework climate and disaster risk-responsive? – Checklist part of the learning package on the Guidance Note on Integrating Disaster Risk Reduction and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework

Do any of the following sections mention disaster risk reduction (including health risk management):	No	Yes, with reference to most significant natural, biological, & technological hazards	Yes, but only partially	Suggested recommendation to the UNCT if “no” or “yes, but...”
Executive Summary				Make reference to the ongoing and expected impacts of COVID-19 and other recurrent disasters related to natural, biological or technological hazards on the country.
Country Progress Towards the 2030 Agenda				Highlight the impacts of COVID-19 and other known disasters/ natural, biological or technological hazards on progress towards the 2030 Agenda, including the cumulative impacts of recurrent hazards.
Theory of Change				Integrate management of disaster risks (related to natural, biological or technological hazards) identified in the Multi-Dimensional Risk Analysis of the Common Country Analysis into the Theory of Change.
Strategic Priorities for the UN Development System				Articulate the role of disaster risk reduction, health risk management and environmental management to achieving and sustaining development results in the priority areas more clearly.
Intended Development Results				Articulate commitment to disaster risk reduction and environmental protection more clearly by utilizing relevant SDG 1, SDG 11, SDG 14 and SDG 15 indicators.

Is the Cooperation Framework climate and disaster risk-responsive? – Checklist part of the learning package on the Guidance Note on Integrating Disaster Risk Reduction and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework

Does each Outcome integrate climate and disaster risk management:	Mentioned in the Outcome statement	Mentioned in the Outcome-specific Theory of Change	Mentioned in the Outcome-specific Partnerships	Suggested recommendation to the UNCT if any are blank, depending on which element is missing:
Outcome 1				<ul style="list-style-type: none"> Commit to climate and disaster-responsive Outcomes by referring explicitly to risk reduction or adaptation in the outcome statement, or use modifier adjective (see page 36-38 of the <i>Guidance Note</i> for examples). In the Theory of Change: explain what action the UN will take to enhance the resilience of the outcome the UNCT is working to achieve. Explain how the UN will engage with partners to advocate for and support investment in climate- and disaster resilient
Outcome 2				
Outcome 3				
Outcome 4				
(insert more if necessary)				
How does the Results Matrix/Results Framework integrate DRR and climate change adaptation?	Mentioned in the Output statement(s) under this Outcome	Climate- and disaster-risk responsive indicators are used to measure this Outcome	Climate and disaster risks are named among assumptions/risks for this Outcome	Suggested recommendation to the UNCT if any are blank, depending on which element is missing:
Outcome 1				<ul style="list-style-type: none"> Commit to climate and disaster-responsive Outputs by referring explicitly to risk reduction or adaptation in the output statement, or use modifier adjective (see page 36-38 of the <i>Guidance Note</i> for examples). Use indicators measures resilience to shocks or resilience capacities to measure progress and success (see page 30-34 and 36-38 in the <i>Guidance Note</i> for examples).
Outcome 2				
Outcome 3				
Outcome 4				

Is the Cooperation Framework climate and disaster risk-responsive? – Checklist part of the learning package on the Guidance Note on Integrating Disaster Risk Reduction and Climate Change Adaptation in the UN Sustainable Development Cooperation Framework

(insert more if necessary)				<ul style="list-style-type: none"> • Show disaster and climate change-related risks/assumptions for each outcome in the Results Framework
				<ul style="list-style-type: none"> •
