

Technical Forum on Sendai Framework Monitoring

7 – 8 December 2021 [Virtual]

Event Link: <https://www.undrr.org/event/technical-forum-sendai-framework-monitoring>

The Sendai Framework monitoring process provides an opportunity for UN Member States to benchmark, measure and concretely track their progress in disaster risk reduction. Since its launch in 2018, more than 150 countries have reported on at least one of seven Sendai Framework targets. UNDRR has used this information to develop analytical reports on the progress in implementation of the Sendai Framework and related SDG targets.

However, the aim of the Sendai Framework Monitor extends beyond compliance in reporting and assessing progress. It is also a means to provide an analytical and evidence base for risk-informed planning through garnering statistically rigorous and government-owned data. It also demonstrates applications in development and humanitarian spheres.

The UNDRR Technical Forum on Sendai Framework Monitoring will:

- Share good practices in national reporting on the Sendai Framework implementation
- Explore current and potential applications of Sendai Framework monitoring data
- Highlight the role of disaster-related statistics in risk-informed governance through targeted analysis.

The Forum will bring together governments and stakeholders to discuss how to transition from data collection to analysis and decision-making for climate and disaster risk resilient development. The Forum will further provide an opportunity to share good practices in Sendai Framework reporting and monitoring, as well as avenues of support to the process. It will also explore the central role of disaster-related statistics in scaling-up and strengthening risk governance at regional and national level.

Target Audience:

- Sendai Framework focal points from Member States
- National Statistical Offices and line ministries involved in Sendai Monitoring and/or disaster-related statistics
- UN organizations who are supporting Member States in this process and who are also potential users of the monitoring data
- Stakeholders and international organizations with an interest in disaster and climate risk and impact analytics

The zoom-based webinar will be structured around interactive sessions with live demonstrations and plenary discussions. Two similar sessions will be held to accommodate different time zones.

Programme

All timings are in Central European Time (CET): Please use these links to convert the CET start time to your local time: Morning session: <https://savvytime.com/converter/cet/08-00> and Afternoon session: <https://savvytime.com/converter/cet/15-00>

Tue, 7 Dec 2021	Morning session (CET)	Afternoon session (CET)
Session	Speakers	
Opening Remarks	<p>0800 – 0815</p> <p>Loretta Hieber Girardet Chief, Risk Knowledge, Monitoring and Capacity Development Branch, UNDRR</p>	<p>1500 - 1515</p> <p>Loretta Hieber Girardet Chief, Risk Knowledge, Monitoring and Capacity Development Branch, UNDRR</p>
Scene setting	<p>Animesh Kumar Head of Bonn Office, UNDRR</p>	<p>Animesh Kumar Head of Bonn Office, UNDRR</p>
<p>Session 1</p> <p>Use and Impact of Sendai Framework Monitor Data: Applications in policy frameworks, national planning and intergovernmental processes</p> <p><i>This session will see presentations and discussion on different ways in which SFM data has been used. Participants will share their experiences on how this has contributed to policy making and planning. Interlinkage of SFM data with the inter-agency and multi-lateral processes will also be explored.</i></p>	<p>0815 – 0845</p> <p>Moderator: Sanny Ramos Jegillos, UNDP</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Sendai Framework Monitor data for Health sector, WHO • Sendai Framework Monitor data for Agriculture sector, Anna Ricoy or Marion Khamis, FAO [TBC] • Use of Sendai Framework monitoring metrics in the INFORM risk index: Sepehr Marzi, JRC-INFORM 	<p>1515 – 1545</p> <p>Moderator: Rahul Sengupta, UNDRR</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Sendai Framework Monitor data for Health sector, WHO • Sendai Framework Monitor data for Agriculture sector, Daniela Mangione, FAO • Use of Sendai Framework monitoring metrics in the INFORM risk index: Sepehr Marzi, JRC-INFORM

Break	0845 - 0850	1545- 1550
<p>Session 2</p> <p>Use and Impact of Sendai Framework Monitor Data: Potential applications in climate action and other thematic areas</p> <p><i>In this session, presenters will investigate the future use of the available data in different sectoral and thematic areas that could benefit from the country reporting. How can climate action be informed by the geography of losses? How can data on mortality and economic losses from disasters influence financing for disaster risk reduction in the future? How can the reporting on multi-hazard early warning systems help to reprioritize focus for vulnerable countries that are in need for such warnings and early action?</i></p>	<p>0850 – 1000</p> <p>Moderator: Irfan Maqbool, ADPC</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Paris Agreement Global Stocktake and Global Goal for Adaptation: Maryam Navi, UNFCCC • Multi-Hazard Early Warning Systems: John Harding, CREWS • Ecosystem based DRR: Fabrice Renaud, University of Glasgow, and Yvonne Walz, UNU-EHS 	<p>1550 – 1700</p> <p>Moderator: Donna Lagdameo, UNDRR</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Paris Agreement Global Stocktake and Global Goal for Adaptation: Maryam Navi, UNFCCC • Multi-Hazard Early Warning Systems: John Harding, CREWS • Ecosystem based DRR: Fabrice Renaud, University of Glasgow, and Yvonne Walz, UNU-EHS
Wed, 8 Dec 2021	Morning session (CET)	Afternoon session (CET)
<p>Session 3</p> <p>Strengthening reporting on the Sendai Framework Monitor: Innovations and insights</p> <p><i>This session will call upon Member States to share their experience on the reporting in the Sendai Framework Monitor. It will also outline the latest thinking from UN and other international partners who can support the Member States in reporting better on specific targets and indicators of the Sendai Framework and SDGs. Initial results of the user experience on SFM will also be presented.</i></p>	<p>0800 – 0855</p> <p>Moderator: Tricia Addie, National Recovery and Resilience Agency, Australia</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Country experience in Sendai Framework monitoring: Bazarragchaa Duudgai, Government of Mongolia • Country experience in Sendai Framework monitoring: Khadar Nur, Government of Somalia • Asia-Pacific Risk and Resilience Portal: Sanjay Srivastava, UNESCAP 	<p>1500 – 1555</p> <p>Moderator: Karine Zoghby, UNDP Lebanon</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Country experience in Sendai Framework monitoring: Yolande ELLA and Jean MINKOULOU, Government of Cameroon • Country experience in Sendai Framework monitoring: Carlos Picado, Government of Costa Rica • Working Party on Development Finance Statistics (WP-STAT) Status: OECD [TBC]

	<ul style="list-style-type: none"> • Earth observation-based indicators for Sendai Framework Monitoring: Yvonne Walz, UNU-EHS 	<ul style="list-style-type: none"> • Earth observation-based indicators for Sendai Framework Monitoring: Yvonne Walz, UNU-EHS
Break	0855 – 0900	1555 – 1600
<p>Session 4</p> <p>Disaster-related statistics: Contributions to risk governance and monitoring</p> <p><i>The session will bring together the disaster risk reduction and statistical community to discuss good practices and means to enhance the statistical quality and standard of data.</i></p>	<p>0900 – 0955</p> <p>Moderator: Rikke Munk Hansen, UNESCAP</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Disaster-related data and statistics in the Pacific: Hélène Jacot Des Combes, Government of The Republic of the Marshall Islands • Hazard Definition and Classification Review: Virginia Murray, UK Health Security Agency • Disaster Data Disaggregation: Rahel Steinbach, UN Women 	<p>1600 – 1655</p> <p>Moderator: Michael Nagy, UNECE</p> <p>Speakers:</p> <ul style="list-style-type: none"> • Disaster-related data and statistics in Latin America and Caribbean: Peter Abad of INEI (NSO) Peru and Alcides Nunes of INE (NSO) Paraguay (Working Group on Measuring and Recording Indicators Related to Disaster Risk Reduction) • Hazard Definition and Classification Review: Virginia Murray, UK Health Security Agency • Disaster Data Disaggregation: Rahel Steinbach, UN Women
Summary and Closing Remarks	<p>0955 – 1000</p> <p>Animesh Kumar, UNDRR</p>	<p>1655 – 1700</p> <p>Animesh Kumar, UNDRR</p>
