The 2021 European Forum for Disaster Risk Reduction (EFDRR) took place from 8 to 10 November 2021, and was co-hosted by Portugal and the United Nations Office for Disaster Risk Reduction. The Forum’s theme was, “Making cities resilient to disasters: city collaboration and inspire other communities to become more resilient to disasters.”

The outcome documents and sessions are available online. The new EFDRR Roadmap 2021-2030 supports coordinated implementation of the Sendai Framework, and related SDG targets until 2030, to drive forward action in prevention, preparedness and resilience. With this outcome, together we can now turn our words into action to reduce disaster and climate risk.

The EFDRR welcomed 1250 virtual participants and 110 delegations from 49 European and Central Asian Member States. During the Ministerial Roundtable, governments endorsed the EFDRR Roadmap 2021-2030. Ministers on site symbolically signed the EFDRR Outcome document.
