Through a recent joint note, the United Nations Office for Disaster Risk Reduction (UNDRR) and the Global Facility for Disaster Reduction and Recovery (GFDRR) encourage the creation, promotion, use, and protection of digital public goods for disaster and climate risk reduction. This webinar will discuss the main findings and recommendations of the note. Representatives from international organizations and governments will share their experience and how they see their role in ensuring digital technologies can benefit the most disaster and climate vulnerable populations.

This will be a virtual event with the following outline:

- Opening Remarks
- Publication Overview
- Expert Panel
- Questions and Answers
- Closing Remarks

**Opening Remarks/Chair**
- Niels Holm-Nielsen
  - Practice Manager, Global Facility for Disaster Reduction and Recovery (GFDRR)
- Jenty Kirsch-Wood
  - Head of Global Risk Analysis and Reporting, UNDRR

**Speakers**
- Pierre Chrzanowski
  - Disaster Risk Management Specialist, GFDRR
- Debarati Guha-Sapir
  - Director of the Center for Research on the Epidemiology of Disasters (CRED) at the Catholic University of Louvain (UCL)
- Jenty Kirsch-Wood
  - Head of Global Risk Analysis and Reporting, UNDRR
- Mikel Maron
  - Product Lead at the Earth Genome and a board member of the OpenStreetMap Foundation
