

# GUIDING PRINCIPLES AND RECOMMENDATIONS FOR MAINSTREAMING GENDER IN DISASTER RISK REDUCTION

## INTERSECTORIAL COORDINATION

Intersectoral work in coordination with different actors of society.

### Recommendations:

Promote the diversity and representativeness of stakeholders involved in DRR.

Prioritize partnerships with feminist and women's organizations.

## HUMAN RIGHTS AND INTERSECTIONALITY

Inclusion of race, class, ethnicity, age, disability, sexuality, gender identity and geographic location, among others, in the conception of gender, being factors of systemic inequalities.

### Recommendations:

Increase knowledge about the human rights, gender, and intersectionality perspective in DRR.

Develop tools to generate knowledge.

## ACKNOWLEDGEMENT, PARTICIPATION, AND AUTONOMY

Capacity building and the willingness of different stakeholders to engage in the participatory formulation of public policies with a gender perspective.

### Recommendations:

Develop links between feminist, women's and civil society organizations.

Acknowledge, value, and incorporate the ancestral knowledge, specially of indigenous women.

Support women's leadership in negotiations and decision-making.

Develop and incorporate gender markers for programmes and projects.
